Ponteland Academy is committed to safeguarding and promoting the welfare of children and young people and expect all staff to share this commitment. An enhanced criminal records check is required for this post. Reference checks will be requested for all short listed candidates.

The Trustees of this highly successful Middle School wish to appoint a Primary Teacher to the new Ponteland Community Primary School.

As Ponteland Community Middle School we were recognised by Ofsted as Outstanding in all areas (2008; 2013) and hold a number of nationally recognised awards including Sports Mark Platinum. We are proud to be a Teaching School still offering SelfLearn Reading and Spelling school to school support across the Region.

Required from September 2020, as Ponteland Community Primary School, we are seeking to appoint a Y3/4 teacher who is passionate about learning; has commitment and expertise; and who will enthuse and motivate both teachers and pupils. In final transition to a primary school, we are building further capacity within school and keen to employ an additional Y3/4 highly motivated teacher. This is a full time, one year post [in the first instance] which would suit a newly qualified or an experienced teacher and it would be helpful if applicants could state their curriculum strengths and expertise.

We have high aspirations not only for our students but also our staff and we invest in professional development opportunities to enable staff to flourish, and contribute to the vision and development of the school.

You will be an outstanding practitioner, committed to continual improvement, promoting an ethos of enjoyment, challenge, attainment and achievement.

Knowledge of, and experience in, ICT is expected as we have Interactive White Boards in all classrooms and use SIMS rigorously.

The successful applicant will be an excellent teacher and will be expected to make contributions to our school, academy vision and primary ethos.

We look forward to welcoming you to our school.
