

Ponteland Community Primary School Accessibility Plan

... in order that they may have life and have it abundantly.' (John 10:10)

3-year period covered by the plan: 2022-2025

Introduction

The SEN and Disability Act 2001/10 extended the Disability Discrimination Act 1995 (DDA) to cover education. Since September 2002, the Trustees had three key duties towards disabled pupils, under Part 4 of the DDA:

- not to treat disabled pupils less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
- to plan to increase access to education for disabled pupils.

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act.

According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The government's definition of disability and long term adverse effects can be read in full [here](#).

The Accessibility Plan is structured to complement and support the school's Equality Objectives, and these are also published on the school website.

This plan sets out the proposals of the Trustees of the school to increase access to education for disabled pupils in the three areas required by the planning duties:

- increasing the extent to which disabled pupils can participate in the school **curriculum**;
- improving the **environment** of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- improving the delivery to disabled pupils of **information which is provided in writing** for pupils who are not disabled.

It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary. What follows are our action plans showing how the school will address the priorities identified in the plan and what the timescales will be.

Vision and Values

At Ponteland Community Primary School we strive to provide our children with an excellent education through broad and balanced learning opportunities. We want all of our pupils to succeed and fulfil their potential, academically, physically and socially in an atmosphere where they can grow and acquire appropriate skills, values and attitudes. We positively believe that a strong global relationship with others across the world is necessary to help our children grow and become effective citizens. We have developed effective, real-life links with the wider world. We provide a caring environment in which every child feels valued and respected. We listen to children and promote informed debate and critical thinking. We respond to children as individuals. Each child is a special person with a preferred learning style and needs. Responsive teaching ensures that pupils obtain modelling, explanations and scaffolding and high quality feedback for all of our pupils.

We believe that we can best achieve our aims by working in close partnership with families. We feel that the school is at the heart of the local community and we strive to maintain and develop as many links as possible with people around us.

At the present time the challenge for us is to continue to improve levels of attainment and quality of provision for every child and to provide a school which works in partnership with and is accountable to the community it serves. We are committed to giving all our children every opportunity to achieve the highest standards. This policy helps to ensure that this happens for all the children in our school – regardless of their protected characteristic, disability or vulnerability

Pre-School/Feeder School Transition

We also have a nursery. We have strong links with our nursery staff and have a very successful transition into reception. Children identified within the nursery as meeting

the criteria are highlighted and a plan is put in place for their successful integration into school.

Some children have difficulties with language, and this is addressed during their time in school.

Progress is discussed with the school SENCO termly and in more detail during the Summer term prior to entry into Reception.

Primary School/ School Transition

Our children tend to feed into a variety of other schools e.g. Ponteland Community High School, Royal Grammar School and Dame Allan's. The same procedures would be put in place for each child regardless of the school they attend. Fostering good relations with our children's future schools is key to our accessibility strategy.

Developing the plan: consultation

The priorities for the Accessibility Plan for the school were identified by:

- The school Trustees
- Head Teacher (in consultation with children, parents and carers)
- SENDCO
- Schools' Equalities Coordinator from Northumberland County Council

The main priorities identified in Ponteland Community Primary School's plan

- To develop adult toilet facilities to meet needs of SEND pupils/adults visiting/accessing/using the school.
- To research alternative sources of funding that might make the development of an accessible toilet possible
- To ensure that transition to the next school is effective and successful for all learners, to prioritise inclusion for any child with additional needs.

Increasing the extent to which disabled pupils can access the school curriculum

There are no limitations on our curriculum whether this is on or off site. We are an inclusive school which will always strive to ensure equal access to all areas of the

curriculum. All school policies recognise, reinforce and celebrate this. Schemes of work in all areas are differentiated thus enabling all to achieve.

Target	Strategy	Timescale and responsibility	Success criteria
Increase the range of strategies staff use to differentiate the curriculum, using proven and evidence-based approaches	Improve the leadership and delivery of support to SEND learners in mainstream schools through the promotion of effective self-evaluation and a good training offer for staff at every level. (Northumberland SEND Strategy 3.1)	SENDCO Ongoing and as required	Raised staff confidence and strategies being deployed. Pupil participation visible.
Ensure that all staff are aware of the particular needs of disabled children and those with SEN when accessing the curriculum	Maintain Individual Access Plans and share information with other agencies involved with the child. Embed a person centred approach with the young person at the centre when planning support. (SEND strategy 4.4)	SENDCO ongoing	Information sharing supports staff to create the best inclusive environment for every disabled child
All educational visits to be accessible to all pupils	Assess every potential venue, itinerary and transport provider for accessibility before agreeing a visit to be viable.	HT, Teachers Anticipatory, in advance of any visits	Participation of all pupils in a wide range of activities and visits. No child excluded on the basis of disability.
Children with SEND settling well into their new schools when they leave PCPS.	During the summer term, staff ensure that effective transition preparation, tailored to the needs of individual children will ensure the child has a good chance of settling and accessing the	Annually Summer term HT, SENDCO, Y4 teacher	When we follow up the children and their destinations in subsequent months, we hope to find that good preparation has led to inclusion and integration. EHAs when appropriate. Plans and funding in place

	curriculum in September		prior to transition wherever possible
Increase access to additional exercise opportunities such as soft play and swimming for pupils with physical impairment	Improve the choice and opportunities for children so they can live as independent life as possible. This includes young people and adults being able to do things that they want to at the right time for them, and, to be able to keep in touch and see people that are important to them. (SEND Strategy 4.7)	School leadership PE specialist SENDCO Ongoing	Innovation and better inclusion for pupils with physical disabilities

Improving the physical environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services:

The physical environment of the school has been modified in the past to reflect the needs of children with additional needs, e.g. a ramp, handrail and wider door.

Parents whose children have mobility or specific issues are able to park safely in the car park. Markings on the car park have been outlined for an accessible parking space.

Signage within school has been further developed; all signs in school are very visual e.g. fire alarms, first aid etc. Signs are developed to combine words and visual clues.

Classroom organisation is altered where and when necessary, via the class teacher or teaching assistant e.g., children who have a hearing/speech difficulty need to be close to the teacher or need to be in a sensitive grouping where they can voice their thoughts without fear of failure.

Recreational facilities on site are accessible to all at present. The yard has markings on to encourage play. A variety of resources are available for play e.g. small balls, larger balls, short/longer skipping ropes, small, medium and large hoops, cones etc. We also have a variety of large vehicles chosen by the children themselves. These vehicles are relevant to different ages and levels of physical development. All of these resources are reassessed when and if necessary. Health and safety inspections are carried out each day via school staff who check for broken items and those in need of maintenance. Our caretaker Mr. Rickward completes a weekly check on the outdoor facilities and a termly inspection is carried out via the Health and safety governor Mrs K Owen. Problems reported are acted upon immediately. We also have an annual non fixed play area assessment carried out via SLA/NCC. All

areas of concern are fed into the SIP and acted upon accordingly to ensure that all facilities are safe for the children.

Target	Strategy	Timescale and responsibility	Success criteria
Improve signage and access for visually impaired people	Ensure that doors, entrances and steps and visually well-defined by the use of contrasting colours. Investigate how best to incorporate tactile information to assist navigation	Ongoing from September 2022 HT and staff	Pupils and visitors with physical disabilities are able to negotiate the school site safely and conveniently at all times
Make sure that there are no barriers that could be reasonably overcome to ensuring that pupils can use all of the school's environment and facilities	Support, empower and challenge staff and school community to effectively include learners with SEND. (SEND Strategy 3.3)	From September 2022 HT, All teachers	Inclusion for all pupils, flexibility across the whole school site, due to portability.
Regularly seek feedback and listen to children, young people and their families to understand what works and what needs to change to make our environments more accessible.	This is part of priority1 of the Northumberland SEND Strategy 2021-2024	Ongoing by all staff who support children and young people with SEND	Good examples of partners working together to develop the best environments for children to thrive.

Improving the delivery to disabled pupils of information that is provided in writing for pupils who are not disabled:

At present all community information in school is given in a written and a spoken format. Written format tends to be our newsletter, parent letters, parent post which is displayed in the yard. Spoken format tends to be in Community Assembly on a Friday, important events e.g. sports evening etc as all parents tend to attend. Important notices etc are given at this time. Within School Council we discuss all important occurrences and share our thoughts with our peers.

Within school we want to encourage a climate where all children can achieve. We are currently developing our curriculum in a creative way which addresses each individual, learning style and personal development and achievement. We firmly believe in identifying which pupils learn best according to the communication style that works for them.

Children with learning difficulties gain access to information via simplified texts incorporating pictures and text. Teaching assistant support and integrated therapies are also targeted according to need.

Specific approaches are incorporated for children who are on the autistic spectrum e.g. pictorial timetable, calm atmosphere, small steps in carrying out an activity. .

Specific programmes are put in place to support learning e.g. Floppy Phonics, Number Talks, Reading Plus.

Speech and language therapy support is augmented by teaching assistants who carry out activities detailed in PEPs on a one-to-one basis.

The following priorities from the [Northumberland SEND strategy 2021-24](#) will influence and improve access to communication support for pupils with SEND at Ponteland Community Primary School

2.3. Improve the way therapy services and support for children with sensory processing difficulties are delivered in Northumberland and co-produce actions which will make a difference.

2.7. Make the best use of resources including digital technology so children and young people have a range of ways to access support, assessment and treatment.

3.1. Improve the leadership and delivery of support to SEND learners in mainstream schools through the promotion of effective self-evaluation and a good training offer for staff at every level.

Date for Review Autumn 2025
